Hutton Football Club **Glasses Policy for participants in Football**

1. As a club, we will only allow children to play matches if they are wearing protective sports glasses.
2. As a club, we appreciate that these glasses are expensive and so we will offer two options to parents, namely:
 - a. The parent(s) will pay the fee for the glasses and are responsible for their arrangement and purchase and the club will reimburse them 30% of the total cost, up to a maximum value of £40. If a child leaves the club within a calendar year of that purchase then the club's contribution will be paid back by the parent(s).
 - b. The parent(s) will be responsible for arranging the purchase of the glasses, inform the club and the club will pay the upfront cost by card, bank transfer or cheque made payable to the supplier, and the parent(s) will then set up a standing order, separate from their monthly fees, to pay back the cost of the glasses over either three, six or nine months (depending on how long is left of the current season).
3. This is a new policy and the club will not retrospectively refund previous purchases of sports glasses.
4. The glasses must conform to any FA requirements, British Standards, etc and a receipt of purchase will be required in order to reimburse any costs.
